Truck-Trailer Delivery From North Carolina of 20,000 lb. Minimum Weight Loads

To customers who do not have a convenient railroad siding and who prefer truck delivery, we have available the facilities of ICC Licensed trucking concerns.

Delivery is by large truck-trailers and can be made to most points in New York, New Jersey, Pennsylvania, Ohio, and New England. Rates are based on a minimum weight of 20,000 lbs. and are slightly in excess of the rail freight rate.

As facilities are limited and delivery destinations are restricted by ICC regulation, truck service is generally available only on orders placed well in advance of shipping date.
